Certification of Position Approval
for Retirement
Under 5 USC 8336(c) and 8412(d)

[x] Approved under the Civil Service Retirement System, 5 USC 8336(c)

[x] Approved under the Federal Employees Retirement System, 5 USC 8412(d)

Category of Coverage: Secondary/Administrative (Firefighter)

Bureau: Any DOI Bureau may use this PD and must use this DOI Standard PD Number*

Classification Title: Fire Management Specialist (Prevention & Mitigation)

Organization Title: _____

DOI Standard PD Number: DOI029* Series and Grade: GS-0401-09

*This number should be entered in the employee's master records (FPPS) as last six spaces of Position Allocation Number.

RECOMMENDATION FOR COVERAGE: Secondary-Administrative Firefighter coverage is recommended under both CSRS and FERS.

This DOI Standard Position Description (SPD) is for a key fire management position located in a fire management organization within any Bureau of the Department of the Interior (DOI). **The FIRE MANAGEMENT SPECIALIST (PREVENTION & MITIGATION) requirements contained in the Interagency Fire Program Management Standards and Guide (IFPM) must be used in conjunction with this PD.** These standards include minimum qualifications, training requirements, competencies, and key performance elements.

The primary purpose of this position is to implement and coordinate internal and external wildland fire prevention and mitigation programs. Key components include wildland fire management and the role of fire in the ecosystem; education program, moderate wildland fire operations complexity with interagency coordination and cooperation issues, wildland/urban interface, and a hazardous fuel reduction program. The incumbent has program responsibility for implementing wildland fire prevention and mitigation program goals and objectives in support of mission accomplishment. **Prior wildland firefighting experience on the fireline, as gained by substantial service in a primary/rigorous firefighter position, or equivalent experience outside the Federal government is a MANDATORY PREREQUISITE to qualify for this position.**

INTRODUCTION:

This is a standard wildland fire management position description intended for use in the Department of the Interior (DOI). The incumbent serves in a key fire management position in a field fire management organization as a Fire Management Specialist (Prevention and Mitigation). The primary purpose of this position is to implement and coordinate internal and external wildland fire prevention and mitigation programs. Key components include wildland fire management and the role of fire in the ecosystem; education program, moderate wildland fire operations complexity with interagency coordination and cooperation issues, wildland/urban interface, and a hazardous fuel reduction program.

The incumbent has program responsibility for implementing wildland fire prevention and mitigation program goals and objectives in support of mission accomplishment.

The qualification requirements specified in the Interagency Fire Program Management (IFPM) Qualifications Standards and Guide must be met prior to entrance into this position.

Prior wildland firefighting experience on the fireline is a mandatory requirement.

This position requires a valid state driver's license.

MAJOR DUTIES:**Program Management (40%)**

Implements a wildland fire prevention and mitigation program. Coordinates and integrates the wildland fire and mitigation plans with affected unit personnel. Makes recommendations to incorporate the prevention and mitigation program goals into higher level plans.

Coordinates and disseminates information concerning wildland fire management activities. Provides and facilitates overall wildland fire prevention and mitigation programs and activities for the local communities, the news media and the general public in the form of meetings, newsletters, events, programs, and posting in community facilities.

Reviews programs and plans, and makes recommendations concerning the inclusion of wildland fire prevention and mitigation principles, practices and policies into local land management programs.

Provides guidance and assistance on wildland fire prevention and mitigation programs to the field, and provides expertise and materials to all supported programs.

Assists with the formulation and execution of the budget. Monitors the expenditure of funds to ensure fiscal integrity and correct application of financial standards.

Planning (20%)

Identifies and analyzes major causes of wildland fire and makes recommendations concerning the inclusion of these causes in fire management plans. Participates in an interdisciplinary planning process in the development and integration of fire prevention into land use and resource management plans.

Implements prevention plans to reduce human and equipment caused ignitions. These plans include public awareness activities and programs, informational promotions, law enforcement programs, and road/area signing efforts. Provides fire prevention programs to individual representatives, local interest groups, and affiliated participants.

Coordinates wildland fire restriction and closure plan development and implementation. Works with news media, public affairs, fire information, law enforcement, and coordinating agencies in developing, implementing and disseminating fire restrictions and closure information.

Operations (40%)

Provides wildland fire prevention and mitigation expertise by representing the unit at local, state, and regional/national/tribal forums. Incumbent implements and maintains an active involvement with other cooperating activities at local and state levels regarding wildland fire prevention and mitigation programs.

Educates the public about the ecology of wildland fire and its relationship to the mission of the organization.

Serves as a contact for media interested in wildland fire management programs and activities, responding to, or facilitating requests from national, regional, and local media. May coordinate news conferences, special events, news releases, and facilitate feature stories related to wildland fire prevention and mitigation programs.

Works with local homeowners, community stakeholders, tribal, state, and federal agencies in an effort to educate and mitigate potential threats to communities from wildland fire.

Coordinates the identification of issues and the mitigation of wildland/urban interface risks to homeowners and communities from wildland fire and hazardous fuels. Develops, coordinates, implements and monitors educational meetings, events, and programs with local communities to reduce loss resulting from wildland fire.

Incumbent has responsibility for assisting cooperators with administering wildland fire education programs and course curricula and by providing program expertise and materials.

Implements products and programs that utilize new fire educational concepts, applications and material.

Participates in internal and external workshops to present key aspects of the wildland fire management program. Develops, presents, and evaluates fire education training, exhibits, and information.

During a wildland fire event, assists with the development and implementation of additional strategic wildland fire mitigation and protection planning which assesses the actual and potential risks and hazards.

If responsible for fire trespass, may perform some or all of the following type of work:

Develops, implements and reviews fire trespass policies and procedures. Coordinates policies and procedures. Coordinates investigation of fire trespass. Works with management to negotiate administrative and legal restitution for losses resulting from fire trespass. Coordinates fire investigation courses for field units and other federal agencies.

As a fire investigator, investigates ignition source causes and location on government land including observing, collecting, and preserving and/or examining evidence. Interviews and/or obtains statements of witnesses. Prepares written reports which may include diagrams, maps and photos.

Provides assistance to other cooperating Federal, State, Local agencies, and Law Enforcement agencies on fire investigations that are multi-jurisdictional.

FACTORS:

1. Knowledge Required by the Position

(Level 1-6, 950 points)

Professional knowledge of natural resource management, fire ecology, fire behavior, and fire management theories, concepts, principles, and standards in a wildland fire environment specializing in prevention and mitigation.

Knowledge of the policies, techniques and practices of wildland firefighting obtained through substantial service as a primary firefighter of the Federal government or in a similar firefighting position outside the Federal government. This is a mandatory requirement of this position.

A comprehensive understanding of multi-agency wildland fire prevention and mitigation plans and policies sufficient to conduct program analysis. The conclusions reached are incorporated into fire management and prevention and mitigation plans.

Knowledge of wildland fire management, fuels management, fire behavior, fire

prevention assessment and planning, fire regimes, fire effects, ecosystem and species response mechanisms to fire and post fire recovery, to comprehend, utilize and apply these principles to mitigate effects of unwanted fire and to convey these concepts to target audiences.

Knowledge to determine the appropriate materials needed to clearly communicate information to a variety of public audiences (technical and non-technical), political and legal representatives, natural resource specialists and wildland fire and land managers.

Knowledge of community relations and media relations to effectively communicate wildland fire issues.

Knowledge of federal, tribal, state, local and other agencies, wildland fire and emergency management policies, practices and philosophies related to the following: restriction and closure plan regulations, cooperative agreements, fire management and ecosystem planning, wildland fire use, wildland fire mitigation principles, and wildland fire suppression techniques.

Knowledge of federal, tribal, state, and local agency roles and responsibilities in wildland fire prevention and mitigation programs.

Ability to conduct and facilitate meetings, effectively organize, coordinate and present workshops and training sessions involving all aspects of wildland fire prevention and mitigation.

Skill in establishing and maintaining effective relationships with local public interest groups; community planners; private landowners; and federal, tribal, state and local governments involved with fire management planning efforts.

2. Supervisory Controls

(Level 2-3, 275 points)

The supervisor gives work assignments in the form of unit objectives, goals, and priorities. The supervisor and the incumbent confer on the development of general objectives, projects, and deadlines.

In consultation with the supervisor, accomplishes assignments within the constraints of Bureau policy and regulations. Has considerable latitude to independently plan and carry out assigned programs and responsibilities. Provides independent advice on technical questions and interpretations of policies and guidelines in the assigned areas of responsibility and is considered an authority in these subject areas. Keeps the supervisor informed of controversial issues and proposed compromises. Technical assistance, if required, is available.

Completed work is reviewed for compliance with the overall unit's objectives.

3. Guidelines

(Level 3-3, 275 points)

Guidelines are found in interagency manuals, agency specific manuals, handbooks, directives and policy statements. Many guidelines provide only limited general directions and require the development of additional procedures to implement their intent.

The incumbent has broad latitude for independent action due to the wide range of variables under which the work is accomplished. The incumbent relies on experience and uses judgment in adapting techniques, methods or established practices to complete assignments and achieve objectives.

A higher graded specialist is available to provide technical assistance and advice on unprecedented program problems.

4. Complexity

(Level 4-3, 150 points)

Assignments involve a broad range of duties in the interagency field of wildland fire management. The work requires coordination and communication among fire specialists, resource specialists, educational and interpretive specialists, as well as with numerous agencies, groups and stakeholders. The complexity of the work is reflected in the coordination required, the number of stakeholders involved, and the communication networks employed. The incumbent must utilize communication and educational systems that reach a broad range of specific internal and external audiences.

The incumbent must be effective in confronting and resolving conflicts and sensitive issues among individuals, organizations and agencies. The individual plans, implements and evaluates conventional wildland fire prevention and mitigation programs.

5. Scope and Effect

(Level 5-3, 150 points)

The purpose of the work is to create and guide field level wildland fire prevention and mitigation programs and to efficiently coordinate these programs with other agencies, cooperators, stakeholders, partners and institutions. Primary responsibility is to provide leadership and guidance, and to develop local area programs, guidelines, standards and procedures.

Completed reports and recommendations influence decisions by managers concerning wildland fire prevention and mitigation and community assistance programs at the field level. The work involves identifying problems, studying, analyzing and making recommendations concerning these programs, thereby affecting the efficiency and productivity of operations in these programs. The work performed influences the effectiveness of the interagency wildland fire program and the relationship with communities and stakeholders.

6. Personal Contacts (Level 3, 60 points)

Personal contacts include co-workers, staff specialists, state, regional, or national office fire personnel, Fire Management Officers, Land Managers, counterparts in the five federal wildland fire bureaus, state lands and forestry departments, tribal governments, municipalities, members of professional councils and societies with an interest in wildland fire prevention and mitigation, fire ecology, law enforcement, news media, local businesses, the scientific and academic communities, and the general public.

7. Purpose of Contacts (Level B, 50 points)

Contacts are made for the purpose of performing studies, gathering information, consulting, advising, recommending, planning, guiding and promoting the development and implementation of the wildland fire prevention and mitigation, fire education, and community assistance programs; coordinating contracts or agreements with educational institutions and private industry; reviewing and evaluating interagency fire mitigation techniques and efforts; conducting research into new educational methods; making presentations and/or instructing groups in regard to the wildland fire management program.

Contacts are to coordinate communications among agency and interagency fire management programs and to keep field specialists current with these programs. Contacts also are required to share wildland fire prevention, mitigation, educational techniques and information effectively with a wide variety of internal and external audiences. Additionally, contacts are necessary to conduct day-to-day business and to anticipate administrative and managerial problems before they arise.

Contacts require tact, determination, and communicative skill, especially to persuade and convince the public and outside organizations of the benefits of wildland fire prevention and mitigation.

8. Physical Demands (Level 8-1, 5 points)

The work is primarily sedentary, although a level of physical fitness is required which will allow for work during periods of extended stress and in the field when wildland fire situations arise.

9. Work Environment (Level 9-1, 5 points)

The work is normally performed in an office; however, travel to field offices and various meetings and conferences is required.

EVALUATION STATEMENT

Recommended Classification Fire Management Specialist (Prevention & Mitigation), GS-401-9

Organizational Location: Department of the Interior, Bureau of Indian Affairs, U.S. Fish and Wildlife Service, National Park Service, and Bureau of Land Management

References: Handbook of Occupational Groups and Families, August 2001. Part I of the Forestry Series, GS-460, Jun 1965 TS-57, Dec 1979, TS-39

Background: The incumbent serves in a key fire management position in a field fire management organization as a Fire Management Specialist (Prevention and Mitigation). The primary purpose of this position is to implement and coordinate internal and external wildland fire prevention and mitigation programs. The incumbent has program responsibility for implementing wildland fire prevention and mitigation program goals and objectives in support of mission accomplishment.

Determination of Series and Title: The General Biological Science Series, GS-401 includes positions that involve professional work in biology, agriculture, or related natural resource management when there is no other more appropriate series. Thus included in this series are positions that involve: (1) a combination of several professional fields with none predominant; or (2) a specialized professional field not readily identified with other existing series. This position is a specialized professional field (Wildland Fire Management) not readily identified with other existing series.

In accordance with agency practice, this position is titled **Fire Management Specialist**.

Because this position requires specialized knowledge of wildland fire prevention and mitigation, the parenthetical title of **(Prevention and Mitigation)** is appropriate and is in line with agency practice.

Determination of Grade: Since no grading criteria is published for occupations placed into the General Biological Science Series, GS-401, the grading criteria found in part I of the Forestry Series, GS-460, (Jun 1965 TS-57, Dec 1979, TS-39) will be used.

FACTOR EVALUATION SYSTEM POINTS RATINGS
